

MASTER ENGINEERING SYSTEMS

MODULES AND LECTURE DAYS 2025-2026

Here is the schedule of modules and subjects for the Master Engineering Systems in 2025-2026.

The modules are offered according to the following scheme for your 1st and 2nd Semester:

Semester August - January				
Monday	Tuesday	Wednesday	Thursday	Friday
Systems Modelling	Advanced Vehicle Dynamics	Applied Control	Innovation in Powertrains	Mathematics
Big Data & Small Data	Reliable Electricity Hubs			

Semester February - July				
Monday	Tuesday	Wednesday	Thursday	Friday
Systems Modelling	Advanced Vehicle Dynamics	Applied Control	Innovation in Powertrains	Mathematics
Big Data & Small Data	Reliable Electricity Hubs	Hydrogen Technology Intelligent Mobility	Embedded Control	

Please note: Hydrogen Technology, Intelligent Mobility and Embedded Control are offered in the 2nd semester only.
