INTRODUCTION

These regulations contain rules about application, enrolment, re-enrolment, and termination of enrolment for the degree course Master Molecular Life Sciences at HAN University of Applied Sciences for the 2021-2022 academic year.

These regulations do not apply to applicants of post-bachelor courses, training courses, or master courses without public funding. This group of applicants can find the relevant application rules in the general terms and conditions for the contract they signed with the relevant post-bachelor degree course, training course or unfunded master course.

General rules and details per degree course

These Enrolment Regulations contain rules that apply to all HAN degree courses and rules that apply only to the degree course Master Molecular Life Sciences. Various points in the model text (i.e. the regulations that apply to all degree courses) need to be filled in for each degree course. The degree courses may not deviate from the generally applicable rules. However, rules that do not apply to the degree course may be deleted. This is why 'not applicable' has been included under various chapters or sections. The chapter and section headings are still included so the numbering does not get mixed up.

1 TERMS AND DEFINITIONS

Applicant	Person who is thinking about applying for a degree course at HAN or who has applied, but whose application is not yet finalised, an aspiring or prospective student.
Application	A request for enrolment in a degree course at HAN.
Dean	The person who is appointed as such and who directs a HAN school.
Executive Board	The institutional board of HAN.
Examination Appeals Board	The board as defined in article 7.60 of the Higher Education and Research Act that is authorised to decide on appeals by applicants and students against decisions affecting them. It concerns decisions summarised in article 7.61 paragraph 1 of the Higher Education and Research Act.
Tuition fees (statutory tuition fees)	The tuition fees as defined in article 7.43 of the Higher Education and Research Act which students have to pay for each academic year the institutional board enrolls them in a degree course.
Entry Assessment Committee	Committee that decides (on behalf of the Executive Board) whether the applicant is suitable for the degree course.
Part-time degree course	Degree course where classes are scheduled at limited times during the week.
Participation in the matching programme	Participating in and completing the matching programme, which includes receiving the matching advice.
DUO	Dienst Uitvoering Onderwijs (education executive agency).
External student	A person enrolled at HAN as an external student as defined in article 7.32 of the Higher Education and Research Act.
Disputes Advisory Committee	The committee (defined in article 7.63a of the Higher Education and Research Act) who advises on objections relating to disputes between a student or prospective student and the Executive Board. This concerns disputes that are not handled by the Examination Appeals Board.
HAN	HAN University of Applied Sciences.
Re-enroller	A student who is enrolled in a degree course at HAN and who wishes to directly continue their current bachelor, associate or master degree course at the start of the new academic year.
Re-enrolment	Renewed enrolment by a student who was also enrolled in the relevant degree course at HAN in the academic year prior to the re-enrolment.
Enrolment	An enrolment for a degree course at HAN.
Institutional tuition fees	The tuition fees as stipulated in article 7.46 of the Higher Education and Research Act for a student not eligible for the statutory tuition fees. These fees must be paid by the student for each academic year the institutional board enrolls them in a degree course.
Degree course	The degree course in Master Molecular Life Sciences
Post-propaedeutic phase	The main phase of the bachelor course; the part of the degree course that follows after the final assessment for the propaedeutic phase.
Student	A person enrolled as a student, as defined in article 7.32 of the Higher Education and Research Act, in a degree course at HAN.
Academic year	The time period starting on 1 September and ending on 31 August in the following year.
Matching advice	The advice an applicant receives after participating in matching activities that test the applicant's suitability for the chosen degree course.

Matching programme	A matching programme that aims to provide insight into the prospective student's suitability for the chosen degree course.
Studielink	The joint application and enrolment software used by universities of applied sciences, universities and DUO.
Full-time degree course	A degree course that is geared towards the full-time availability of the student and where educational activities can be held at all available times.
Higher Education and Research Act	The Higher Education and Research Act (Wet op het hoger onderwijs en wetenschappelijk onderzoek – WHW)
WSF2000	Student Finance Act 2000.

**2 EDUCATION REQUIREMENTS FOR BACHELOR OR ASSOCIATE DEGREE
COURSE**

Not applicable.

3 MATCHING PROGRAMME

Not applicable.

**4 BACHELOR COURSES WITH DECENTRALISED SELECTION (ENROLMENT
QUOTA)**

Not applicable.

5 BACHELOR COURSES WITH ADDITIONAL REQUIREMENTS

Not applicable.

6 ADMISSION TO A MASTER COURSE

Enrolment for a master course is possible when the applicant meets the education requirements and any other qualitative admission requirements. As an education requirement, the applicant must in any case hold a bachelor degree from a university or university of applied sciences or possess knowledge, understanding and skills at the level of a bachelor degree from a university or university of applied sciences.

In addition, qualitative entry requirements have been established for most master courses. These could include prior education requirements, requirements for specific work experience, employment, proficiency in a foreign language, etc. If qualitative admission requirements apply, an applicant can be enrolled for the degree course only when they have met these requirements.

The paragraphs below contain the admission requirements. No distinction is made between education requirements and qualitative admission requirements.

6.1 Admission requirements

The following admission requirements apply for the master course in Master Molecular Life Sciences:

- Bachelors degree in the field of molecular life sciences (molecular biology, cell biology, biochemistry) or having the equivalent knowledge, understanding and skills according to the enrolment regulations;
- Professional use of English (B2 level of English according to the Common European Framework of Reference recommended). More information regarding English fluency can be found in [appendix B](#);
- Practical lab research experience in the field of molecular life sciences during or after the bachelors course of at least 5 months.

If an applicant does not meet (one of) the admission requirements, or cannot submit any proof of this, they can take part in an admission assessment to prove the required qualifications.

There are additional requirements for the full-time course. These can be found in [appendix C](#).

For the part-time course there are employment requirements. These can be found in [appendix D](#).

6.2 Maximum number of admissions

The master courses below have set a maximum for the number of students who can start the degree course each year.

Name of degree course
Circular Economics
Neurorehabilitation
Design of Contemporary Learning
Arts Therapies

The master course Molecular Life Sciences has no set maximum for the number of students who can start the degree course each year.

7 APPLICATION AND REGISTRATION

7.1 Applying via Studielink

Application

Anyone wanting to enrol in an associate degree, bachelor or master course at HAN can apply from 1 October prior to the academic year via Studielink (www.studielink.nl). A student who wishes to switch degree courses or who wants to start their degree course again after stopping also has to apply via Studielink.

We advise EU-students interested in the degree course to contact the education programme (master.mls@han.nl) to negotiate about suitability before applying via studielink.nl.

HAN has set the following application deadlines for starting a degree course in September of the 2021-2022 academic year:

Degree course	Application deadline
Bachelor and associate degree, full-time	15 August
Bachelor and associate degree, part-time/work-study	1 September
Master, full-time/part-time/work-study	EU / EEA: 15 August Non-EU / EEA: 1 May

Applicant from the Netherlands

An applicant with an official Dutch residential address and a Citizen Service Number (BSN) is required to apply in Studielink using a DigiD. An applicant who does not yet have a DigiD is advised to request one in a timely manner. It takes at least five working days before the applicant receives their DigiD.

Applicant from abroad/outside the Netherlands

An applicant with a residential address abroad cannot use DigiD. They still have to apply via Studielink. In that case the applicant has to make a Studielink account using their own email address via the website (www.studielink.nl). If applicants have any questions, they can contact the Admissions Office at admission@han.nl.

Correspondence and change of personal data

All correspondence concerning application, enrolment, re-enrolment and termination of enrolment will be emailed to the email address linked to the Studielink account. The applicant is responsible for making sure these details are correct. If there are changes to the contact details and/or personal data, the applicant has to change this in a timely fashion via Studielink. After the applicant has met all enrolment and admission requirements, information concerning education will be emailed to the email address linked to the HANaccount.

Personal verification

The applicant's personal data have to be verified. This can be done in two ways:

- The applicant who lives in the Netherlands logs into Studielink using their DigiD. Based on this, their data is verified in the Personal Records Database (BRP).
- The applicant with an address abroad has to submit a copy of a valid ID (passport or ID card), possibly along with a Dutch residence permit, to the Student Administration Office (sia@han.nl).
 - When sending the copy, be sure to block the Citizen Service Number (BSN), also in the number series at the bottom.
 - On the copy of the ID, mention that it is a copy.
 - Also mention the party for which the copy is intended.
 - And mention the date on which the copy was issued.

International students and checking legitimate residence

An applicant with a non-EER nationality, in accordance with the Aliens Act, must submit a copy of a valid Dutch residence permit and a valid ID to the Student Administration Office (sia@han.nl).

During the enrolment at HAN the student must be legitimately residing in the Netherlands. The Student Administration Office checks these data based on the described guidelines in the Act and the Benefit Entitlement (Residence Status) Act.

7.2 Application data

Applying for a bachelor or associate degree course

Enrolment requests for a bachelor course or associate degree course must be submitted no later than 1 May prior to the academic year.

When an applicant applies no later than 1 May, they are entitled to admittance to the degree course provided they meet the admission requirements. For application after 1 May, a positive matching advice is also required for admittance. Application after 1 May to a full-time degree course with a 1 September intake date is possible until 15 August.

Applicants applying for a degree course with a 1 February intake are also entitled to admittance when they apply no later than 1 May prior to the academic year (provided they meet all the admission requirements). After 1 May there is no entitlement to admittance. In that case, admittance depends on the matching advice. Application for a 'February degree course' is possible up to 1 February at the latest. The degree course may decide that application is only permitted up to 15 January. Applicants can check this on the website of the degree course.

Application for a degree course with an enrolment quota

The above does not apply for a degree course with a Selection & Placement procedure (degree courses with enrolment quotas). For these degree courses, the final application date is 15 January (at 23:59) prior to the academic year. Read more about this in [chapter 4](#). Application after 15 January is not possible for the propaedeutic phase of a degree course with an enrolment quota.

Application dates for a master course

Different application dates may apply for a master course. For more information, see the relevant page of the degree course at www.han.nl/masters.

Applicant from a country outside the EU

An applicant from outside the EU has to apply via Studielink no later than 1 June prior to the academic year. This is due to the visa procedure. For application in a degree course starting on 1 February 2022, the applicant must apply no later than 1 November 2021.

7.3 Enrolment per 1 September or 1 February

1 September intake

In principle, an enrolment applies for the entire academic year. An applicant can request interim enrolment, see [section 7.4](#).

1 February intake

Several degree courses have a 1 February intake. To see which degree courses have a 1 February intake, see the relevant page of the degree course on the HAN website. Applying for a degree course with a February intake is possible up to 1 February, unless the degree course decides otherwise. An enrolment with a 1 February intake date applies for the remainder of the academic year (up to and including 31 August). A student who has applied and is enrolled for the February intake must re-enrol via Studielink for the following academic year (from 1 September). Re-enrolling in Studielink is possible from June. Students receive an email about this from HAN (to the email address linked to their Studielink account).

7.4 Interim enrolment

An interim enrolment means enrolment with a start date other than 1 September.

Study feasibility

Interim enrolment is only possible if the dean deems the study programme feasible with a starting date at the moment it is actually possible for the student to be enrolled. Naturally, all other admission requirements from these regulations also apply to requests for interim enrolment.

Matching programme

If the applicant is required to participate in the matching programme, an interim enrolment is only possible if the applicant has completed the matching programme and this has not led to a rejection. For more information, see: [chapter 3](#).

Enrolment and re-enrolment

The applicant is enrolled on the first day of the month in which all conditions for enrolment have been met. An exception to this is enrolment in the month of October: in this case the applicant is only enrolled on the day on which all conditions for enrolment have been met. This has consequences for possible rights to student finance and OV travel product. In addition, tuition fees are charged for the entire month.

For interim enrolment, the enrolment is valid for the rest of the academic year (up to and including 31 August), unless a request to terminate the enrolment for the degree course is made at an earlier time via Studielink. A student who enrolls on an interim date and then wishes to continue studying after 31 August must re-enrol for the new academic year via Studielink. Re-enrolling in Studielink is possible from June. Students will receive a message about this by email from HAN. The mail address linked to the Studielink account will be used for this purpose.

7.5 Application as external student

Enrolment as an external student is only possible when the dean deems that it will not compromise the nature or interest of the education. An external student has the right to take exams and final assessments in the degree course for which the enrolment applies, but does not have the right to take exams and final assessments for other degree courses. The external student can only be enrolled in exams and final assessments, so has no right to education, educational facilities or supervision. The external student also has no voting rights nor can they stand for election. This means they cannot vote in elections, for example for the participation council, nor can they be chosen as a member of such a

council or any other organ for which an election is organised. For more information about tuition fees for external students, see article 9.4 of these regulations.

Enrolling as an external student in a work-study degree course is not possible.

7.6 Application as international student

In addition to the enrolment requirements, applicants from outside the EER are required to hold residence documents as specified by law. HAN applies for the student visa for the applicant. However, the applicant must keep track of the deadline(s). More information can be found on [the website for international students at HAN](#) or requested from the Admissions Office (admission@han.nl).

7.7 Guaranteed start

When the applicant meets all the enrolment requirements, they can be enrolled as a student. If the applicant meets all the enrolment requirements at least 10 working days before the official start of the degree course, they are guaranteed of being enrolled at the start of the degree course and of being able to use all HAN facilities. The enrolled student also has the rights outlined in the Student Charter.

7.8 Application withdrawal

Application withdrawal by applicant

If the applicant decides they cannot or do not want to start the degree course they have applied for, they can withdraw the application (the request for enrolment) via Studielink (www.studielink.nl). The withdrawal must be submitted before the first day of the month in which the degree course starts. If a certificate of paid tuition fees has already been received, it must be returned by post to the Student Administration Office: Postbus 5375, 6802 EJ Arnhem.

If the application was not withdrawn via Studielink before the first day of the month in which the degree course starts, the student will be enrolled (provided they meet all the admission and registration requirements) and will be charged the tuition fees for at least that month.

Application withdrawal by HAN

If the applicant does not meet the admission requirements before the start of the degree course, the student will not be enrolled. The request for enrolment will then be rejected. This also applies for students who still have payment delays for previous academic years.

8 ENROLLING AFTER BINDING NEGATIVE STUDY ADVICE (BNSA) AND SWITCHING DEGREE COURSES

Not applicable

9 TUITION FEES

9.1 General provisions

Students are required to pay the statutory tuition fees or institutional tuition fees for every academic year that they are enrolled in a degree course. The fees determined by HAN are announced before the start of the academic year. The applicant can find the due amounts on the HAN website (via www.hanuniversity.com) and in the Student Charter for the 2021-2022 academic year. An applicant who enrolls in a degree course during the academic year will pay one-twelfth of the annual tuition fees applicable to them for each month remaining in the academic year.

9.2 Statutory tuition fees

A student who meets each of the conditions below will be charged the statutory tuition fees.

- The student is enrolled in a government-funded degree course at HAN;
- The student falls in one of the following categories:
 - The student is a national of one of the EU countries, Norway, Switzerland, Iceland, Lichtenstein or Suriname;
 - The student is a family member of an EU citizen living in the Netherlands or
 - The student has a residence permit that makes them eligible for student finance.

At the start of the academic year, the student has not already earned a similar diploma for a government-funded degree course. So no associate degree certificate if they enrol for an associate degree course, no bachelor degree certificate if they enrol for an associate degree course or bachelor course and no master degree certificate if they enrol for a master course. Furthermore, the prospective student may not have not earned a bachelor or master degree certificate if they enrol in an associate degree course.

There are exceptions to this last rule. A student is still charged the statutory tuition fees if:

- they have already earned a (bachelor or master) degree, but are starting a health or education degree course for the first time. The answer to whether a degree course falls in the category of health or education can be found in the DUO [register of degree courses in higher education \(CROHO\)](#).¹

¹ See [DUO app](#), or the link <https://apps.duo.nl/MCROHO/pages/zoeken.jsf>. Enter the BRIN code for HAN, 25KB, or search for 'Hogeschool van Arnhem en Nijmegen', and/or the name of the degree course. After clicking on the right degree course (click on 'details'), an information page appears. The category in which degree course is registered can be found in the section 'Opleiding' under the heading 'Onderdeel'.

- they started the second degree course during the first degree course and, also after earning the first degree, continued to follow the second degree course without interruption.

The student who meets the requirements as mentioned above and is enrolled in a part-time or work-study degree course is required to pay that part of the statutory tuition fees that is equal to the full-time amount (full statutory tuition fees).

The amounts of the tuition fees can be found in the Student Charter and on the HAN website.

9.3 Institutional tuition fees

Students who are not eligible for the statutory tuition fees have to pay the institutional tuition fees. The exact amount of the institutional tuition fees can be found in the 2020-2021 Student Charter and the HAN tuition fees calculator.²

9.4 Final assessment fee for external students

The final assessment fee that external students have to pay is the same as the statutory full-time tuition fees. External students have no right to a refund on the paid final assessment fee when they cancel their enrolment prematurely or when they do not pass the final assessment.

9.5 Halving tuition fees

The tuition fees for the first year will be halved for each applicant who:

- is starting a degree course at a government-funded university or university of applied sciences for the first time (so has not previously been enrolled in Dutch higher education); and
- is going to do a bachelor course or associate degree course; and
- is paying the statutory tuition fees. This applies to full-time students, work-study students and part-time students.

Some applicants still pay the complete statutory tuition fees (or institutional tuition fees if they do not meet the conditions for statutory tuition fees). The tuition fees will not be lowered for students who:

- were already enrolled in a degree course in higher education before the 2020-2021 academic year.
- are taking a master course.
- are paying institutional tuition fees.
- are following a degree course in higher education not funded by the government.
- are participating in the demand-based funding experiment.

² If the link to the tuition fees calculator does not work, copy the following address to your browser:
<https://www.han.nl/collegegeld>.

9.6 International students

In addition to payment of tuition fees, students from countries outside the EER have to meet the financial requirements set by the Immigration and Naturalisation Service. This is called the *Financial Guarantee*. Information about this can be found on [the website for international students of HAN](#)³ or through the Admissions Office.

9.7 Payment of tuition fees and administration costs

- Tuition fees may be paid either as a lump sum or in 10 instalments by direct debit (for the September intake).
- Students who pay in instalments are charged €24 for administration costs.
- When paying in instalments, the 10 instalments are collected in the months of September to June, around the 25th day of the month.
- The payment is arranged by issuing a digital direct debit authorisation in the Studielink account of the (prospective) student.
- When a digital direct debit authorisation is not possible, but the student does have an account at a bank within the SEPA area, a digital authorisation can be issued in the Studielink account of the (prospective) student.
- When neither a digital direct debit authorisation nor a digital authorisation is possible, the prospective student has to contact the Tuition Fees Administration (CIC) to find out about an alternative payment procedure. This involves a timely and direct transfer of the full tuition fees applicable for the relevant academic year. In this case, payment in instalments is not possible.
- When enrolling during the academic year, the number of months between September and the enrolment date will be deducted from the tuition fees. If a student chooses to pay in instalments, the remaining instalment dates will be the same as for a September enrolment.
- If in a particular academic year a student has already paid statutory tuition fees to a university or other university of applied sciences that are higher than or equal to the statutory tuition fees owed to HAN, and that student enrolls as a student at HAN, they will not pay statutory tuition fees to HAN in that year. That student meets the tuition fee condition by submitting a certificate of paid tuition fees issued by the other educational institution. If the amount paid elsewhere is lower than the statutory tuition fees owed at HAN, the prospective student submits the certificate of paid tuition fees from the other educational institution and pays HAN the difference between the two amounts.
- If the student has outstanding payments, they need to settle them before 1 September 2021; the date before they can be (re-)enrolled for the 2021-2022 academic year.

³ If the link to the website does not work, copy the following address to your browser:
<https://www.han.nl/international/english/information-for-international-students/visa/financial-guarantee/>.

9.8 Refund of tuition fees

Refund for payment in lump sum

A student who terminates their enrolment in the degree course during the academic year (interim termination) is entitled to a refund of the tuition fees for each month remaining in the academic year after the termination of enrolment. This means that a student who terminates their enrolment on 1 February (end date 28 February) has been enrolled for 6 months of the academic year. So they are entitled to a refund for six months. The student is thus entitled to a refund of 6/12ths of the tuition fees for that academic year.

If a student terminates their enrolment on 1 July (end date 30 June) or 1 August (end date 31 July), they will not be entitled to a refund of the tuition fees and will be required to pay tuition fees for the entire academic year. In that case, the student may choose to remain enrolled for the entire academic year (until 31 August).

The student does not need to apply for a refund. This is automatically calculated by the Tuition Fees Administration as soon as the request from Studielink to terminate their enrolment has been processed by the Student Administration Office.

If HAN has issued a certificate of paid tuition fees to the student, the student must first return the original HAN certificate of paid tuition fees to HAN before HAN can refund any part of the tuition fee.

If a student dies in the course of the academic year, a twelfth of the tuition fees will be refunded for each month of the academic year following the student's death. This does not apply to termination of the enrolment as of July or August.

Refund for payment in instalments

When tuition fees are paid in instalments, termination of the enrolment may entitle the student to a refund of an already paid instalment. In that case, contact the Tuition Fees Administration at cicdesk@han.nl.

External students

External students are not entitled to a refund of the final assessment fee in the case of interim termination of enrolment.

10 RE-ENROLMENT

At the end of May / start of June of the 2021-2022 academic year, the student is notified by email at [the email address recorded in Studielink](#) to submit a request for re-enrolment via Studielink for the new

academic year. After indicating that they wish to be re-enrolled for the following academic year, the student must issue a digital direct debit authorisation through Studielink. If the student has outstanding payments, they need to be settled before they can be re-enrolled for the 2021-2022 academic year.

When the student does not meet the requirements for re-enrolment (on time), their enrolment is terminated for the relevant degree course at HAN as of the end of the previous academic year (31 August 2021).

A student who does not wish to be re-enrolled should arrange this in Studielink (see the information provided about this on www.studielink.nl). By doing so the student avoids repeated notices, reminders etc.

11 TERMINATING ENROLMENT

A student who is enrolled but decides not to follow the degree course can terminate the enrolment. Termination via Studielink before 1 September is free of charge. After the start of the degree course, the student can also have their enrolment terminated by submitting a request for termination of enrolment in Studielink. To do this, the student must have paid the tuition fees for the month(s) in which they were enrolled.

Request for termination of enrolment

To terminate an enrolment before or after the start of the degree course, the student needs to submit a request to terminate their enrolment in Studielink (www.studielink.nl).

The enrolment will be terminated as of the following month, i.e. the month after the request was received by HAN. Example: request for termination of enrolment is submitted in Studielink on 15 April; the enrolment is terminated per 1 May (so with end date 30 April) on the first working day in May.

Retroactive termination of enrolment is not possible. A request for termination of enrolment submitted in June, July or August in principle leads to a termination of enrolment as of 31 August. In June or July, a student may select termination of enrolment for a date other than 31 August in Studielink, but no tuition fees will be refunded in this case.

When the student already has a certificate of enrolment and/or certificate of payment of tuition fees at HAN, this certificate must be returned to HAN after the request for termination of enrolment is submitted in Studielink. Any tuition fees paid in excess can be refunded. For information about this, see [section 9.8](#).

Termination of enrolment by HAN

In the following cases, HAN can terminate an enrolment as of the following month without the student requesting termination of enrolment:

- When the students has been given binding negative study advice (i.e. BNSA in June, July or August that leads to a termination of enrolment on 31 August);
- Through a decision by the Executive Board because of:
 - confirmed serious fraud;
 - breach of the internal rules and disciplinary measures;
 - the causing of a serious nuisance in the buildings and on the grounds (See art. 7.57h of the Higher Education and Research Act);
 - a Judicium Abeundi (a decision by the Executive Board that a student has behaved or expressed themselves in a way that shows them to be unsuitable to perform one or more of the professions they are being educated for in the degree course or shows them to be unsuitable to prepare for the practice of the profession. See 7.42a of the Higher Education and Research Act).
- Because of not paying tuition fees or final assessment fees. The enrolment termination takes place as of the second month following the last demand for payment.

APPENDIX B

Sufficient language proficiency

Students can demonstrate their English proficiency by either of the following options:

- IELTS score of at least 6.5
- TOEFL score of 90 or higher (internet-based)
- Cambridge FCE Grade B minimum score 176 / CAE / CPE

APPENDIX C

Additional requirements for the full-time course

Students taking part in the full-time format of the Master Molecular Life Sciences need an internship placement during the complete study duration. This internship is required to carry out the activities and achieve the learning goals of the units of study Research and Product Development Skills 1 &2, Managing Projects 1&2, and Graduation Project.

The education programme supports students in finding a suitable internship. To this end, applicants contact the programme (master.mls@han.nl).

APPENDIX D

Employment requirements for part-time degree courses

Students taking part in the part-time variant of this degree course need to meet certain employment requirements. Those requirements also apply if you are self-employed.

The employment must enable students to carry out the activities and achieve the learning goals of the units of study Research and Product Development Skills 1 & 2, Managing Projects 1 & 2 and the Graduation Project.
