Getting Started

Connecting your iOS device with eduroam

Welcome

In this manual you will find instructions for connecting your **Apple iOS** device to the wireless network of the Hogeschool van Arnhem and Nijmegen. The name of the wireless network is **eduroam**.

Requirements

To be able to connect to **eduroam**, you need the following:

An iOS device.

Employees: Your **HAN e-mail address**.

- Example: `firstname.lastname@han.nl`

Students: Your **HAN student e-mail address**.

- Example: `initials.surname@student.han.nl`

The password of your **HANaccount**.

iOS Version

The information in this manual applies to iOS version 9 and higher.

Connecting to eduroam - procedure

- 1 Open **Settings**.
- 2 Tap on the category **Wi-Fi**.
- 3 Under the header Choose a network: Tap on **eduroam**.
- 4 In the textbox User Name: Enter your **HAN e-mail address**.
- 5 In the textbox Password: Enter your **HAN password**.
- 6 Tap on the **Connect** button.
- 7 In the Certificate dialog box: Tap on the **Accept** button.
- 8 The connection is made with **eduroam**. Your iOS device is now **connected** to eduroam.

Some remarks

It is your own responsibility to keep the software and anti-virus program on your device up-to-date.

With eduroam you have access to the internet at other Educational institutions For a list of organizations that support eduroam, visit www.eduroam.nl.

The HAN is not responsible for any damage to/or malfunctioning of your device.
