

MASTER MOLECULAR LIFE SCIENCES

# BOOST YOUR INNOVATION WITH MASTER INTERNS

PROVIDE A 2 YEARS  
INTERNSHIP FOR OUR  
INDUSTRY ORIENTED  
MASTER AND GET A  
PROFESSIONAL WITH  
TAILORED SKILLS.  
[HAN.NL/MMLS](https://han.nl/mmls)

OPEN UP NEW HORIZONS.

**HAN** UNIVERSITY  
OF APPLIED SCIENCES

## THE PROPOSITION

- An ambitious and talented post-graduate student who can actively contribute to your projects for 2 years.
- An opportunity to host a young talent fitting your organization.
- Master students are trained in scientific, project management and professional skills during our course.
- Supervision of the student by our institute, in collaboration with you.

## YOUR STAKE IN THIS:

- A 2 year internship at your company: 3 days per week (24 h) for the first 1.5 years and 5 days a week (40 h) for the last 0.5 year.
- Challenging projects that can be supported by the MSc assignments.
- Progress support and monitoring.

## TOP RATED PROGRAM

The course received high accreditation scores and a silver medal from Keuzegids Masters student ratings.

## BRING YOUR OWN STUDENT

Alternatively to find and guide an intern, a present BSc. level employee can be trained to the MSc. level, while staying productive at your site.

## JOIN US
