Getting Started

Connecting your Windows 10 device with eduroam

Welcome

In this manual you will find instructions for connecting your Windows 10 device to the wireless network of the Hogeschool van Arnhem and Nijmegen. The name of the wireless network is eduroam.

Requirements

To be able to connect to eduroam, you need the following:

An Windows 10 device.

Employees: Your HAN e-mail address.

- Example: firstname.lastname@han.nl

Students: Your HAN student e-mail address.

- Example: initials.surname@student.han.nl

The password of your HANaccount.

Windows Version

The information in this manual applies to Windows 10 version 1509 and higher.

Connecting to eduroam - procedure

1. At the bottom right of the taskbar: Click on the network icon.
2. Click on eduroam.
   Mark the option Connect automatically.
   Click on the Connect button.
3. Enter your HAN e-mail address in the first box and
   your HAN password in the second box.
   Click on the OK button.
4. In the dialog box, click on the Connect button once again.
5. You are now connected to eduroam. From now on, your device will automatically connect to eduroam.

Some remarks

It is your own responsibility to keep the software and anti-virus program on your device up-to-date.

With eduroam you have access to the internet at other Educational institutions For a list of organizations that support eduroam, visit www.eduroam.nl.

The HAN is not responsible for any damage to/or malfunctioning of your device.
